INTERNET USE

Moolap Primary School uses the Internet and digital technologies as teaching and learning tools. We see the Internet and digital technologies as valuable resources, but acknowledge they must be used responsibly. Your child has been asked to agree to use the Internet and mobile technologies responsibly at school. Parents/carers should be aware that the nature of the Internet is such that full protection from inappropriate content can never be guaranteed.

At Moolap Primary School we:

- Have policies in place that outline the values of the school and expected behaviours.
- Provide a filtered Internet service
- Provide supervision and direction in online activities and when using digital technologies for learning
- Support students in developing digital literacy skills
- Promote Cybersafety across the school which is reinforced across the school
- Use mobile technologies for educational purposes
- Provide support to parents/carers through information evenings and through the document attached to this agreement for parents/carers to keep at home
- Work with students to outline and reinforce the expected behaviours when online.
- Reinforce that Cybersafe and responsible behaviours are expected in their school use of digital technology

When I use digital technology I agree to:

- Be a safe, responsible and ethical user whenever and wherever I use it
- Support others by being respectful in how I communicate with them and never write or participate in online bullying (this includes forwarding messages and supporting others in harmful, inappropriate or hurtful online behaviour)
- Talk to a teacher if I feel uncomfortable or unsafe online or see others participating in unsafe, inappropriate or hurtful online behaviour
- Seek to understand the terms and conditions of websites and online communities and be aware that content I upload or post is my digital footprint
- Protect my privacy rights and those of other students by not giving out personal details
- Use the Internet for educational purposes and use the equipment properly
- Use social networking sites for educational purposes and only as directed by teachers
- Abide by copyright procedures when using content on websites (ask permission to use images, text, audio and video and cite references where necessary)
- Think critically about other users' intellectual property and how I use content posted on the Internet.
- Not interfere with network security, the data of another user or attempt to log into the network with a user name or password of another student
- Not reveal my passwords to anyone except the system administrator or the teacher
- Not bring or download unauthorised programs, including games, to the school or run them on school computers

When I use my (School or BYOD owned) mobile device I agree to:

- Use the device to support my learning unless otherwise instructed.
- To use the device only when instructed to by my teachers.
- To report any wrongdoing that I see immediately to my teachers. This includes on a device or online.
- Not let other students use my device without parent or teacher permission, and only then in full view of a supervising adult.
- To look after my device with great care at all times so as not to compromise its safety.

School Council Endorsed: 25 November 2014

• Seek permission from individuals involved before taking photos, recording sound or videoing them.

• Seek appropriate (written) permission from individuals involved before publishing or sending photos, recorded sound or video to anyone else or to any online space.
